PROFILE SUMMARY

- Software Engineer with more than **2 Years** of experience in Solution Design, Analysis and Development.
- Proficient in **Angular 19+**, **JavaScript** complemented by **Java 8+**, **Spring Boot** and **MySQL** as Database.
- Hands on experience in Responsive screen design, state management, custom component development and different UI libraries like **Angular Material**, **PrimeNg**.
- Experience in working with teams, solving complex integration challenges, Integrated **50+ REST APIs**.
- Involved in all phases of the Software Development Life Cycle (SDLC).

TECHNICAL SKILLS

Languages : C, Java 8+, JavaScript (ES6), TypeScript, Python

Backend : Spring Boot, JDBC, REST APIs, Node.js, Hibernate

Frontend : HTML, CSS3, SCSS, Bootstrap, Angular 19+, RxJs, PrimeNg

Databases : MySQL

Tools : Eclipse, Vs Code, Postman, STS, Svn, Git

PROFESSIONAL EXPERIENCE

Software Engineer
First Choice

October 2025 - Present
New Delhi, India

Project : Fc_Spark

- It's ERP-MES solution for the bakery manufacturing industry that streamlines the manufacturing planning, recipe management, costing, inventory, billing, and sales tracking.
- Built a **billing system module** using **Angular**, **Node.js** and MySQL.
- Developed **custom pricing** logic, enabling dynamic product-level pricing strategies.
- Working on **Recipe management** with costing feature for efficient production planning.

Jr. Software Engineer
Elogix Software Pvt Ltd. (<https://elogixsoft.com/>)

November 2021 - June 2023
Kolkata, India

Project : TNA

- Developed a Single Page Application (SPA) using **Angular**, improving responsiveness and cross-device user experience.
- Implemented efficient client-side handling of **document, audio, and video uploads with validation** and preview support.
- Built **reusable UI components** to enhance maintainability and reduce development effort.
- Improved authentication workflows using **JWT and OAuth2**.
- Resolved critical bugs and optimized performance, **achieving ~10% improvement**.
- Contributed to technical documentation, code reviews, testing, and deployment processes.

Project : VIDHI

- A product designed to organize, track, and analyze company resources.
- Developed frontend features using **React.js**, **managing state** and integrating APIs with **Axios**.
- Implemented efficient data handling for large datasets in lists and tables using strategies like lazy loading and state optimization, **improving performance by ~25%**.

EDUCATION

Adamas University, Kolkata
B.Tech in Computer Science

2017 -2021
CGPA - 8.15
